

Information about the 1st credit test in Pathological Physiology 1

Date and venue

- **GM – Tuesday, October 28, 2025, 12:15 - 13:45** in the **Aula** (note: lecture/test moved to the Aula!)
- **DM – Monday, October 27, 2025, 9:15 - 10:45** in **P2**

Test organization

The credit test consists of two parts:

- **Multiple-choice test - ROGO** (electronic format)
 - Conducted during the first half of the lecture
 - Scope and duration:
 - VL group: 25 questions – 50 minutes
 - ZL group: 20 questions – 40 minutes
 - Each question contains 5 statements with a variable ratio of correct and incorrect ones. Students must mark YES or NO for each statement, depending on whether it is correct or incorrect.
 - Each correctly marked answer is worth 1 point. To pass, a student must achieve at least 60%.
 - GM: max. 125 points – min. (60%) 75 points
 - DM: max. 100 points – min. (60%) 60 points
- 2. **Open test** (written part)
 - Paper format
 - Conducted during the second half of the lecture
 - Duration: 40 minutes
 - Students either fill in or circle the correct answers, depending on the specific formulations of each question
 - The scoring of each question depends on its scope and difficulty
 - To pass, a student must achieve at least 60%
- **Students must first complete the ROGO test and may proceed to the open test only after finishing the ROGO test.** The ROGO test will automatically close when time expires, and it will not be possible to return to it.
- The results of the ROGO test will be published in AIS. Students will be informed about the open test results by their teacher.

Important notes

- Students are asked to verify their access to ROGO
- List of topics is available on the Institute's website
- Students are requested to come at the test site **at least 10–15 minutes earlier**.
